

## TRANSITIONS at LECS

At LECS we work as a team across our school, from the babies' room through to Year 2, to ensure smooth transitions for children. This is especially important at LECS as most of our children and families use and move between the different services we provide. These services include:

- ✓ Education and Care (provided by Woden Community Service) in the babies, toddler, 3 year old and preschool spaces
- ✓ Out of School Hours Care (provided by Woden Community Service) for Preschool to Year 2 children
- ✓ Education Directorate School Programs (for Preschool to Year 2).

We refer to this movement as '*transitions*'. Supporting our children and families around transitions is an important goal at LECS. Supporting transitions helps to build a successful schooling experience.

We help all children and families as they transition between learning spaces at LECS. Key transition points are:

- ✓ from Education and Care to Preschool
- ✓ from Preschool to Kindergarten
- ✓ from Year 2 to Year 3
- ✓ from Before School Care to school at 9am
- ✓ from school to After School Care at 3pm

We encourage families and educators to talk and work together around transitions.
